## **KEEP SEVEN LOCKS SAFE**

- **NO** bus depot
- **NO** neighborhood crisis & detention center
- **YES** to Safety

Montgomery County wants to redevelop the 40-acre site of the Rockville Detention Center facility to include a bus depot, new crisis management services, and rebuilt detention center that operate 24/7. ***This plan raises serious safety, environmental, traffic congestion & financial concerns.***

The County has been negligent in communicating their plans to the community. We believe this community must be engaged and needs to be heard. We need a voice.

### **WE OPPOSE THESE PLANS**

- A bus depot will add unnecessary traffic, pollution, noise and safety concerns with 260+ buses added into a congested residential area.
- Move Crisis Center from Piccard Drive to Seven Locks.
- Expanded crisis service and detention center plans have not been communicated to the community, nor have other options been explored.
- Safety issues are of top concern considering there is limited access to public transportation in this residential area. The centers will operate 24/7 and release folks at any time of day or night, but the bus services only operate from 5:15am-10:30pm.
- These plans have the potential of significantly lowering home values.

WE support the Crisis Now Model, but believe these proposed centers belong in closer proximity to existing health centers and close access to public transportation.

### **TAKE ACTION**
